

Kumail Nanjiani to Join Datadog's DASH Conference as Featured Speaker

May 14, 2025 at 8:00 AM EDT

Leaders from JPMorgan Chase, Rivian, Thomson Reuters, Expedia, Coinbase and more will also speak at DASH

NEW YORK -- [Datadog](#), Inc. (NASDAQ: DDOG), the monitoring and security platform for cloud applications, recently unveiled new speakers for its [annual DASH conference](#), taking place June 10-11, 2025 at North Javits Center in New York City. Kumail Nanjiani, the Oscar- and Emmy-nominated actor, writer and comedian known for *The Big Sick*, *Silicon Valley* and *The Eternals*, will be joining the DASH main stage as the featured speaker.

In his fireside chat at DASH, Nanjiani will share his perspective on being creative under pressure and his story of making the transition from a standup comedian to a big screen star, all while providing an honest view on collaboration and tech culture.

Along with highlighting Nanjiani as the featured speaker, Datadog also announced new [customer speakers](#) for the conference. Practitioners and executives at JPMorgan Chase, Thomson Reuters, Rivian, Expedia and Coinbase will join previously announced speakers from organizations like Redfin, Thales IFE, Toyota and more.

"DASH is about bringing practitioners and teams together to discuss the future of applications, infrastructure, security and GenAI," said Jeremy Garcia, VP of Technical Community at Datadog. "We have [over fifty sessions planned](#) and are thrilled to welcome Kumail Nanjiani and customers from all over the world to our roster of speakers."

About Datadog

Datadog is the observability and security platform for cloud applications. Our SaaS platform integrates and automates infrastructure monitoring, application performance monitoring, log management, user experience monitoring, cloud security and many other capabilities to provide unified, real-time observability and security for our customers' entire technology stack. Datadog is used by organizations of all sizes and across a wide range of industries to enable digital transformation and cloud migration, drive collaboration among development, operations, security and business teams, accelerate time to market for applications, reduce time to problem resolution, secure applications and infrastructure, understand user behavior and track key business metrics.

Forward-Looking Statements

This press release may include certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended including statements on the benefits of new products and features. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Actual results may differ materially from those described in the forward-looking statements and are subject to a variety of assumptions, uncertainties, risks and factors that are beyond our control, including those risks detailed under the caption "Risk Factors" and elsewhere in our Securities and Exchange Commission filings and reports, including the Quarterly Report on Form 10-K filed with the Securities and Exchange Commission on May 6, 2025, as well as future filings and reports by us. Except as required by law, we undertake no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events, changes in expectations or otherwise.
